**Subject:** LOT definition

Mike,

One other thing I noticed. Did you mean to include the LOT definitions? In our comments, we recommended this language for the circular with the following note about whether we would approve 4 mg/L TN and 70 ug/L TP.

1. Limits of technology means the best wastewater treatment processes that exist for the removal of nitrogen and phosphorus compounds from wastewater.[TL1]

That's all for this week.  
Tina
